An open letter to Gary Knopp

Gary,

Serving in an elected position is a tough job made easier by the help of supporters and volunteers, a team. Precisely District 30 of the Alaska Republican Party. Thank you for taking part in the process.

Since your election the team is disappointed in your performance and no longer supports your candidacy. The representation provided is not what our team voted to receive. This dissatisfaction has been communicated and formalized by the censure vote of both District 30 and the SCC. To date these measures have been ignored.

As the wishes of D30 and the statewide ARP team have been ignored, it falls to me to ask that you withdraw from the primary as a Republican candidate. If you wish to continue affiliated with some other group, good luck to you and may the best candidate win.

If you choose to misrepresent yourself as a Republican in the election we are prepared to defend our brand and take measures to dissuade you from that pursuit.

Respectfully,

Thomas R. Daly
